

# Sewing Mastery's Stitching Cosmos 2025 International Fiber Exchange

## What is a Fiber Exchange?

A Fiber Exchange is when a large group of sewists each buys a skein of yarn (or in this Fiber Exchange, three skeins), cut it into shorter useable lengths (10 feet / 3 meters from each skein) and then swap the fibers between other participants. The result is that each person ends up with a wide variety of fibers to try out for couching or surface embellishment projects. You will end up with 60 different fibers from the Sewing Mastery Fiber Exchange.

If you would like a variety of yarns and novelty fibers to use in future projects without spending a ton of money, then join us for the **Sewing Mastery Stitching Cosmos 2025 Fiber Exchange!** A Fiber Exchange is a cost effective way to increase your fiber collection by exchanging with 20 other people.
